2026 donation value guide

Printable table of used-goods value ranges for donated items

Thrift-store value per item for US federal income tax, compiled from 5 published charity valuation guides. Guides fetched 2026-11-16; rules reviewed 2026-11-17. Source: https://donationvalue.com/donation-value-table

These are reference ranges, not official values. The IRS publishes no item values (Publication 561): a donated item is worth its fair market value, the price a willing buyer would pay for it used. Pick the figure that matches what your item would really sell for, keep a dated list and the charity receipt, and check the rules for your situation. Not tax advice.

Method: for each item we take the median of the guides low prices and the median of their high prices. Good used is the lower half of that range, like new the upper half. Poor condition is $0 for clothing and household goods (IRC section 170(f)(16)). Guides = how many of the guides list the item; items listed by one guide are less certain.

Item	Good used	Like new	Guides
Women's clothing			
Dress	$6-$13	$13-$20	5
Evening / formal dress	$10-$36	$36-$62	1
